

COLLABORATION OPPORTUNITIES AND PARTNERSHIPS

WE OFFER FLEXIBLE MODELS FOR COLLABORATION: FROM DIRECT RESEARCH ASSIGNMENTS TO JOINT R&D PROJECTS AND STRATEGIC PARTNERSHIPS

CONTRACT RESEARCH & ANALYTICS

- Experimental studies, analyses, and method development on a contract basis
- Fast and focused execution of clearly defined research questions
- Contract type: Direct assignment / service contract

FRAMEWORK AGREEMENTS & ENGINEERING SERVICES

- Flexible long-term collaboration with predictable availability
- Example: Engineering services at 1,200 € per day
- Defined work scope or thematic area (e.g., catalysis, process development, analytics)
- Ideal for ongoing R&D support or peak-load coverage

JOINT RESEARCH & DEVELOPMENT PROJECTS

- Cooperation within national or EU-funded research programs
- Joint proposal preparation and topic development
- Shared access to public funding, infrastructure, and innovation networks
- Suitable for high-innovation, pre-competitive research topics

STRATEGIC PARTNERSHIPS

- Long-term, trust-based collaboration beyond individual projects
- Joint development of technology roadmaps and innovation strategies
- Early involvement in partner-specific R&D challenges and scale-up concepts
- Preferential access to expertise, facilities, and emerging technologies
- Optional exclusivity arrangements or co-ownership of results
